## Undergrad Scholarships— Duke University Marine Lab, Spring 2104

The Duke University Marine Laboratory is pleased to offer scholarships for two non-Duke undergraduate students covering tuition & fees, room & board, books, travel to Beaufort, and full support for participation in a *Beaufort Signature Travel Course* to Ascension Island, the Bahamas, California, Panama or Singapore during a semester of study, Spring 2014 in Beaufort, North Carolina.

**Deadline Sept. 15, 2013**

## Field of Dreams Conference

*-We want to see you in Phoenix!*

Nominations and applications are starting to pour in for the **2013 Field of Dreams Conference** this November 1-3. We would love for you to join us! Mentors please take some time to nominate your scholars by sending an e-mail to [e-ph-fod@uiowa.edu](mailto:e-ph-fod@uiowa.edu) and scholars once nominated don't forget to apply with the link your mentor provides you! The Field of Dreams is a great place to learn about program opportunities, meet and network with your peers, and even apply for a graduate program or REU. Please talk with your mentor about being nominated.

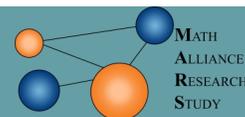

Final application deadline is September 3rd, so get your nominations and applications in today!

*Click here to read some 2012 Field of Dream testimonials from California State University— Fullerton!*

**Deadline  
September 3rd**

## Math Alliance Research Study:

Upcoming Data Collection

The Math Alliance Research Study's data collection efforts will take place throughout the 2013-2014 academic year, beginning with the release of two online surveys in early Fall 2013. The online survey for Alliance mentors will be launched the week of August 19th. The online survey for Alliance students will be launched the first week of September.

Invitations to participate in the surveys will be distributed to mentors and students by email, sent from the Math Alliance Research Study. The survey URLs will be unique to each potential respondent, so that you may save and continue working on the survey at a later time. Each survey will remain open for approximately 3 weeks. There will be a drawing for Amazon.com gift cards for individuals who complete the student survey. Additional details will be included in your invitation to participate in the study.

The members of the Math Alliance Research Study look forward to learning more about your experiences as students and mentors in the Alliance Program. You can visit their [website](#) to learn more about their research efforts on the Alliance program.
