

# Wayne State University

## Department of Mathematics

Required	Strongly Recommended	Minimum Requirements	Other factors
Graduate Teaching Assistantship application form; official transcripts from previous graduate and undergraduate institutions; three letters of recommendation are required.	GRE is not required, but a good GRE score can help an application.  Bachelors degree in mathematics (or equivalent) is strongly recommended, including one full year of upper-division algebra and one full year of upper-division analysis.		Copies of publications, or other major works such as undergraduate theses, are welcome.  REU experience is a plus.

### Current Practice on Application Fee Waiver:

The Wayne State University Department of Mathematics charges no fee for a Graduate Teaching Assistantship application. Students can delay their university admissions applications until after receipt of a GTA offer.
