

The Ohio State University Interdisciplinary PhD Program in Biostatistics

Required	Strongly Recommended	Minimum Requirements	Other factors
Multivariable calculus, linear algebra	Experience in programming and quantitative research (e.g., Senior or Masters Thesis, undergraduate research experience)	A minimum 3.0 cumulative GPA (on a 4.0 scale) in all previous undergraduate and graduate work.	Students are evaluated based on several factors, including their grades, letters of recommendation, and personal statement.

Current Practice on Application Fee Waiver: To request an application fee waiver, please send an email to Sebastian Kurtek, Graduate Studies Chair, at kurtek.1@stat.osu.edu. You will also need to select "PGD Program" in the fee waiver section of the application.
