

# Is a Duke Biostatistics graduate degree in your future?

**Application open:**

**MB 9/1/21–1/3/22, PhD 9/1/21–12/1/21**

Are you interested in improving health outcomes, research collaborations with well-respected scientists and healthcare providers, and numerous opportunities for career advancement?

Students from a variety of backgrounds and experiences make up the Biostatistics and Bioinformatics community at Duke.

Two graduate degrees are housed within the department, the Master of Biostatistics and the Doctorate in Biostatistics. Competitive scholarships are available. Apply now—September 1–January 3. For more information visit [www.biostat.duke.edu](http://www.biostat.duke.edu) or contact Kendall Mincey at [kendall.mincey@duke.edu](mailto:kendall.mincey@duke.edu).
